Introducing the new HALOGEN LIGHT BULB.

The classic light bulb is reborn. OSRAM is introducing the NEW HALOGEN Energy Saver range as its direct replacement. They save up to 30% energy without compromising the familiar look and light of the classic light bulb. They work with the same dimmers and existing light fittings and they are mercury free.

For more information on the Halogen Energy Saver range call 0800 423 333 or email: osram@impel.co.nz.

For more information on the government light bulb ban visit their website: <http://www.eeca.govt.nz/news/media-releases/lights-out-on-incandesant-bulbs.html>
